

Connecting to SMU_Guest

1. Locate the **WiFi settings** on your device.
2. Connect to **SMU_Guest**.
3. Launch a **web browser** (Firefox, Safari, Chrome or Internet Explorer).
4. If the portal page does not appear, type in a web address such as **smu.edu** and hit enter. You should then be redirected to the portal page.
5. If you do not have an account on the guest network, click the link next to "**Need an account?**" and follow the instructions below. Otherwise, continue to step 6.
 1. *(Required)* Enter your **name** in the Name Field.
 2. *(Optional)* If you would like to receive your password via text message, enter your **cellular phone number** in the Phone Number field (ex: 2147682000).
 3. *(Required)* Enter a **valid email address** in the Email Address field.
 4. **Check the box** to accept the terms of use.
 5. Click **Register**.
 6. You will see a confirmation page. Click the link to **Login**
6. **Login** using your temporary credentials.
 1. Enter the **email address** you provided as your username.
 2. Enter the **password** provided in the email or text message confirmation.
 3. **Check** the box to accept the terms of use.
 4. Click **Login**.

Please Note: Your credentials are valid for 72 hours only. After that time, you will need to repeat the provisioning process as outlined above. If you will be on campus for longer periods of time, an existing faculty or staff member can request a guest account with a longer expiration through the IT Help Desk.
